Additional Information about Blue Options from Blue Cross NC

Benefit Period

The period of time, usually 12 months as stated in the group contract, during which charges for covered services provided to a member must be incurred in order to be eligible for payment by Blue Cross NC. A charge shall be considered incurred on the date the service or supply was provided to a member.

Allowed Amount

The maximum amount that Blue Cross NC determines is to be paid for covered services provided to a member.

Out-of-Pocket Maximum

The dollar amount of out-of-pocket costs.

Day and Visit Maximums

All day and visit maximums are on a combined in- and out-of-network basis.

Utilization Management

To make sure you have access to high quality, cost-effective health care, we manage utilization through a variety of programs including certification, transplant management, concurrent and retrospective review. If you have a concern regarding the final determination of your care, you have the right to appeal the decision. If you would like a copy of a benefit booklet providing more information about our Utilization Management programs, call the toll-free number listed in your information packet.

Certification

Certification is a program designed to make sure that your care is given in a cost-effective setting and efficient manner. If you need to be hospitalized, you must obtain certification. Non-emergency and non-maternity hospital admissions must be certified prior to the hospitalization. If the admission is not certified, a penalty will be applied. For maternity admissions, your provider is not required to obtain certification from Blue Cross NC for prescribing a length of stay up to 48 hours for a normal vaginal delivery, or up to 96 hours for delivery by cesarean section. You or your provider must request certification for coverage for additional days, which will be given by Blue Cross NC, if medically necessary.

Office visits do not require certification. In-network providers are responsible for obtaining certifications. The member will bear no financial penalties if the in-network provider fails to obtain the appropriate authorization. The member is responsible for obtaining certification for services rendered by an out-of-network or out-of-state provider.

Health and Wellness Program

Our program includes a health topics library; asthma and diabetes management; and a prenatal program. You will also have access to online health and wellness information at BlueCrossNC.com. With our program you can get health advice anytime you need it, so you can learn how to take charge of your health.
